introduction

Northants Open Studio Trails (NOST) is the largest visual arts event in and around the county. During the month of September artists invite you into their studios to witness at first hand the inspiration and motivation, which drives them to create. Step inside a pottery studio, discuss carving with a stonemason or watch demonstrations of painting, printmaking and traditional crafts.

This brochure will show you the huge range of art activities featured this year and help you to choose where to visit. Many artists will also present their work as groups in galleries, shops, pubs and a host of interesting alternative venues.

Artists have been grouped together by region and are marked on easy to follow maps, which will help guide you around the county, so you don't miss a thing!

central exhibition

27th August – 1st October 2016

The Alfred East Art Gallery will be hosting the Central Exhibition for Northants Open Studio Trails this year, which is a great place to see examples of each participating artist in one room. It is hoped that the exhibition will inspire visitors to get out and about around the county to visit studio spaces and follow the trails of their choice.

All artists involved in the Central Exhibition will be eligible for 'artist prizes', some of which will be announced on 27th August and others will be announced towards the end of the Trails on 1st October.

On the Edge Framing have kindly supported NOST this year and are awarding a 'People's Choice Award'. They are asking visitors to choose their favourite piece in the exhibition and they will award the winner with a £75 framing voucher. Pick up your voting slip at the Central Exhibition.

artist profiles

carol clift

Jeweller Carol Clift has been creating stunning jewellery for 30 years. Her dazzlingly beautiful and intricate work is hand-made using traditional techniques studied at the University of Sheffield where she graduated with honours in Silversmithing and Jewellery in 1985. She is a member of the National Association of Jewellers.

10 Open: 10th & 11th, 17th, 24th & 25th
September 2016 12 noon - 4pm

4 NOST

angela holmes

"I delight in spending time with a sketch book propped on my knee and the wind and rain whipping the pages around as I try to capture that fleeting moment of atmosphere and energy.

I am totally inspired by the ever changing light, movement and texture in the sea, sky and landscapes of the coast."

26 Open: 4th, 9th-11th, 16th-18th, 23rd & 24th
September 2016 1pm - 5pm

PAGE 16

lisa timmerman

Lisa Timmerman grew up in Leicester during the 'Golden Age' of Leicester's knitwear industry.

Having studied art at Loughborough Art College she went on to do a degree in Fashion and Textiles at Bristol Art College. Lisa worked for many years in the fashion industry producing clothing and artwork for international clients. Since resettling in Leicestershire, close to Foxton Locks, Lisa has developed her painting practice focusing on what is important to her.

"I'm constantly alert to the interesting colours of light and shadow around me. My challenge is to capture the light and the joy in my paintings which can be found in every garden."

bob dawson

Bob Dawson (1921-2012) was an independently celebrated British sculptor of the 20th Century. Born in Holywell, North Wales, his sculptures are directly linked to memories of his childhood and his intimate relationship to nature.

Throughout his lifetime, his sculptures continued to evolve, using a range of materials such as bronze, stone and clay in an organic manner; carving them into strangely shifting forms and achieving a complex patina of surfaces.

The artist believed that his sculptures were primarily concerned with life, its' shifting and changing nature, which is in constant flux: the cycle of conception, growth, decline, death and rebirth. It is the eternal cycle, of which we are part of, and the human courage to go on living despite its hardships and weathering, that inspired him most.

Join his daughter Alison who will be opening up the studio for the public to enjoy Bob's work.
